EXTRACT TOOL

Fastman
SAFE, SIMPLE, SECURE

Easily extract data from your OpenText and SAP Extended ECM Platforms.

- Save time and effort while sharing content, metadata, and taxonomy information

- Accurately share information from your platform with other parties

- Eliminate unnecessary cost and overhead due to repetitive and tedious tasks.

- Ensure team collaboration and monitoring

Extracting content and data can be a laborious and error-prone task, which can put your organization at risk of incurring high costs. Fastman Extract Tool enables you to transfer a wide range of content, meta-data, and taxonomy information between your Extended ECM Platforms quickly with just a few clicks.

Quick And Simple Data Extraction

To efficiently extract data from Extended ECM, you need robust tools and streamlined processes. Extract Tool simplifies the procedure, ensuring compliance and fast, accurate export of information. You can run jobs as a one-time operation or as part of a regular business process. Extract Tool streamlines migration, freeing up your team to focus on other essential activities. It is easy to install, requires no server-side components, and can be securely run from a PC.

Reduce Administrative Overheads

Fastman's Extract Tool helps organizations using Extended ECM to manage their documents and meta-data effectively. It allows individuals or project teams to extract data effortlessly, eliminating manual tasks and enabling faster data sharing with other systems. The Extract Tool is a versatile and affordable solution that can generate consistent value from your data without requiring expensive technical resources.

Experienced Partners In Data Integrity

We have worked with several global organizations who are struggling with managing their documents and meta-data in a cost-effective way. That's why we are proud to be an OpenText Gold Solution Extension Partner, SolEx Gold Partner, SAP PartnerEDGE Build Silver Partner, and DocuSign Silver Partner. We have been providing our clients with OpenText EIM information integrity solutions and expertise since 2006.

Extract Tool helps your team take care of repetitive and tedious tasks, freeing them to focus on other essential activities.
